

THINK SMART ABOUT OPIOIDS

Protect Yourself, Family, Community and State

secure your Rx Drugs

Scan code for a free medicine safe and disposal pouch

Ask your provider to explain all your pain management options before choosing opioids alone.

If using opioids, ask your provider to start with the "Lowest strength effective dose" over a shorter duration (less than 1 week)

Use free drop boxes at city police county sheriff stations and select local Pharmacies.

Participate in community Rx Drug take back events happening year round.

Use home trash as a last resort and never crush medicine before disposal

Don't flush medicines. This can impact our water supply overtime.

Peer Recovery Support available for people recovering from alcohol or drug abuse.
